ABOUT PERFUMER:

VANESSA PRUDENT

Born in Normandy, she discovered an early passion for scents through nature during her numerous horse rides. To follow her dream, she studied perfumery in Paris at ISIPCA.

After gaining experience as a perfumer at the prestigious company IFF in São Paulo, Brazil, she now uses her talent to create unique fragrances for Argeville customers.

PERFUME DESCRIPTION:

With the first rays of dawn, the desert sands welcome the golden light rising from the horizon. A gentle morning breeze moves across the landscape, carrying a feeling of purity and new beginnings. The earth still holds the coolness of the night as the sun slowly spreads its warmth. It is a fleeting moment between stillness and life, where everything feels brighter and clearer.

PERFUME STORY:

A radiant floral citrus fragrance that glows like dawn over the desert. The brightness of mandarin and bergamot melts into solar blossoms and musky skin warmth, bringing the softness of morning light on sun-kissed skin.

PERFUMER'S NOTE:

When I created SUN STONE, I wanted to capture the feeling of a new beginning. Not the intensity of the sun itself, but the quiet moment when the first light touches the horizon and the world slowly awakens. I imagined a fragrance filled with optimism, warmth and serenity, a scent that feels like taking a deep breath before the start of a beautiful day.

This vision comes to life through radiant citrus notes, solar white florals and a warm skin-like base.
